## **DETAILED ACTION**

1. There were two claims numbered "12" in the case. Therefore the second claim 12 was renumbered by the office as claim 13, and all of the subsequent claims were renumbered accordingly. See 37 CFR § 1.126.

### ***Claim Objections***

2. Claims 5-30 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend on another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Dillon et al (US # 4,815,547). See column 6, line 16 through col. 7, line 24; and, column 9, lines 29-43.

**Conclusion**

5. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. There is no suggestion in the art of record to modify the load cells of Dillion et al to generate their own address with a random number generator.
